RUTHERFORD
NEW JERSEY

Introduction

We take pleasure in presenting this Autumn Catalogue to our patrons and thank them for their generous support and complimentary letters of the past season. We constantly aim to please our patrons and our increased facilities combined with our extensive European connections enable us to do this with a large degree of success. We are pleased to solicit your further patronage, feeling confident we have the quality of ornamental stock which you may need to beautify your grounds. If there is any thing you want not enumerated in this catalogue, kindly send to us your order, as we have a large volume of stock in great variety. We have extensive office facilities, enabling us to give your correspondence prompt and careful attention.

Prices in this Catalogue are F. O. B. Rutherford, N. J. Packing charged at cost.

Important.—This Catalogue cancels all previous prices, either in special lists, offers or catalogues. This rule will be strictly observed.

Orders from unknown correspondents must be accompanied by cash or satisfactory references.

Terms.—Strictly cash; a cash discount of two per cent allowed on orders accompanied by cash. Interest at the rate of six per cent will be charged on all bills not settled promptly.

Request that your orders be shipped by express. It will save you trouble and unnecessary delay. We will not be responsible for goods shipped by freight. We warrant our stock to be as represented in this Catalogue, but do not guarantee crops or assume any responsibility after the stock leaves our hands. All errors and omissions in the execution of orders will be satisfactorily adjusted if we are notified immediately upon the receipt of goods.

Head Gardeners and Assistants.—We have on file a list of competent and reliable gardeners awaiting engagements. Parties needing proficient men for these positions will probably secure better and more practical men through us than on their own responsibility. We make no charges, our only wish being to assist our customers in what is often a difficult matter.

Visitors.—Our nurseries are always open to visitors; inspection of our stock will convince you we are filling our orders with the finest class of stock grown. We shall be pleased to have any one interested in gardening visit our nurseries, situated at Rutherford, N. J., where we have on hand quantities of stock of our own growing, in addition to a line of the different stocks in season from the European firms which we represent, thus facilitating inspection and the prompt execution of orders.

Shipping Bay Trees in Spring

Remarks

We have established our Nurseries in a most advantageous position, being only eight miles from New York City Hall; in consequence, parties intending to purchase ornamental Evergreens, Boxwood, Conifers, Shade Trees, trained and ordinary Fruit Trees, Shrubs and any other stock to beautify the grounds, can have the privilege to inspect and personally select any individual specimens that may appeal to the visitor.

We wish to call the reader's attention to our large collection of choice ornamental stock, which probably cannot be excelled in this country. We import and grow the finest class of stock we can purchase in every part of the world. Therefore, lovers of new and old, beautiful and rare hardy plants, trees, evergreens, etc., for outdoor planting, can enjoy seeing these without loss of time and at a very little expense.

The macadamized roads are exceptionally fine, leading to Rutherford; an automobile run to our Nurseries is frequently enjoyed by our visitors. Our Nurseries can be reached by electric cars from Hoboken, by taking Christopher or Barclay Street Ferries, and by the main line of the Erie Railroad from New York City, Rutherford being the first station on the line.

Yours respectfully,

BOBBINK & ATKINS,
Rutherford, New Jersey

Bulb bedding by Bobbink & Atkins

HYACINTHS

HOW TO GROW THEM

HYACINTHS IN POTS.—For the culture of the Hyacinth in pots, it is of the greatest importance to have a good light, rich soil; rich loam, decayed cow manure and sand in equal proportions will suit them best. When potting, leave the top of the bulb level with the surface of the soil; 4- or 5-inch pots are the best size to use. After potting, place them on a bed of wet ashes or ordinary soil, and cover them to a depth of 5 or 6 inches. When well rooted, which will be in about six weeks, they may be removed indoors. The best time for planting is October and November.

HYACINTHS IN BEDS AND BORDERS.—The best time for planting these is October or November, in light, rich soil, which should previously be dug to a depth of 18 inches. The bulbs may be planted 6 inches apart and 5 inches deep. To protect the bulbs against severe weather, the beds or borders should have a slight covering of small litter, straw or hay, which should be removed about the end of March.

HYACINTHS IN GLASSES.—Fill the glass with clear water so as to touch the base of the bulb, putting in a small piece of charcoal. After filling the glasses, they should be placed in a cool, dry, dark place for a month, till the roots reach about the bottom of the glass, when they may be brought to the light. Attention is required to keep a sufficient supply of water in the glass, and looking over the bulbs while growing, to brush off any decayed skin that may be on the bulb. The water should be changed every two or three weeks.

MIXED SORTS, IN SEPARATE COLORS

BEST QUALITY, SUITABLE FOR FORCING OR BEDDING

Single, all colors, separate.					Double, all colors, separate				
Each	Doz.	100	1,000		Each	Doz.	100	1,000

mixed . 05 45 3 50 32 00					" " " mixed . 05 50 3 75 35 00				
Dark Red, Rose or Pink,	Red (all shades), Pure White,		Blush White, Light Blue,		Dark Blue, Blue (all shades),		Yellow, White (all shades).		

IMPORTANT. Parties who intend planting large quantities of Hyacinths, Tulips, Crocus, Narcissi, etc., in beds or borders, will do well by communicating their wants to us, stating space to be covered, and we will suggest varieties, quantities and prices for same. We have on hand large Hyacinths for exhibition purposes. We can make up an assortment of Hyacinths in different varieties, Single and Double, at \$7.50 per 100.

STRICTLY FIRST-SIZE NAMED HYACINTHS

The superiority of first-size named Hyacinths for pot culture and growing in water is attested by the increased sales of the past few years. They will always produce large, full spikes, which will certainly give better satisfaction than the smaller blooms produced by the mixed grade.

OUR SELECTION FOR POTS AND GLASSES

Collection of 50, in 50 choice varieties	\$5 00
Collection of 25, in 25 choice varieties	2 50
Collection of 12, in 12 choice varieties	1 25

DARWIN TULIPS

This new late-flowering class of self-colored single Tulips are of stately growth and beautiful flowers in a large range of color, embracing almost every tint in rose, heliotrope, violet, crimson and other rare shades. The great advantage is that they flower considerably later than the ordinary Tulips, and, having exceptionally long stems, are especially adapted for cutting. We can highly recommend the following varieties:

Price, \$1.25 per doz., \$8 per 100, except
where noted

Auber	May Queen. \$2 per doz., \$12 per 100.
Circe	Nova Scotia
Carminea	Professor Balfour
Early Dawn	The Sultan
Goliath	White Queen. \$2 per doz., \$12 per 100.
Harry Veitch	
Kate Greenaway	

100 bulbs in 12 varieties listed above, \$12

NARCISSI

All Narcissi and Daffodils are hardy with the exception of the Polyanthus group, these requiring a covering of litter over winter. For indoor growing, Narcissi require the same treatment as Hyacinths. Plant three bulbs in a 5-inch pot.

Narcissi Paper White Grandiflora

The popular white Narcissi from France. If planted in September will bloom in December.

TRANSVAAL DAISY

(Gerbera Jamesoni)

Is the only winter, everblooming, long-stemmed, brilliant scarlet flower useful for cut purposes in existence. For several winters we have grown this plant in benches and pots in our greenhouses in a temperature the same as usually maintained for rose culture. It is a very profuse bloomer if given the attention during the winter as above suggested. At times the flowers have most remarkable keeping qualities, frequently remaining in perfection from two weeks to two months. This, with its brilliant scarlet flower, proved to be one of the attractions at our Nursery last winter. Everybody interested in having beautiful flowers for the table should have a quantity of this now popular scarlet Barbeton Daisy growing in their greenhouse. Extra-strong flowering plants, 50 cts. each, \$3.50 per doz., \$25 per 100

Amaryllis

"RUTHERFORD PARK" LAWN GRASS

To obtain a beautiful lawn, one which is pleasing to the eye and a joy to the owner, every care should be exercised in the selection of your grass seed. We recommend to you our **Rutherford Park Mixture**, which we have found very satisfactory in our extensive landscape gardening work, and which has given great satisfaction wherever used.

Our **Rutherford Park Mixture** will make a close, thick turf in a very few weeks. It roots deeply, enabling it to withstand severe droughts, and consequently maintains a beautiful rich green color the entire season. We believe this mixture to be the best now on the market, and would ask our customers to carefully consider this before placing their orders. We can supply any quantity desired.

Field of Japanese Lilies taken last summer in our nursery

LILIES FOR FORCING

Lilium candidum

(*St. Joseph's Lily*)

Old-fashioned white garden Lily, suitable for forcing as well as outdoor planting. Imported French Selected Stock. Price, 15 cts. each, \$1.50 per doz., \$7.50 per 100.

Lilium Harrisii

The best white Lily for winter forcing.

	Each	Doz.	100
First Size Bulbs	\$0 15	\$1 50	\$10 00
Extra Selected Bulbs	25	2 50	18 00

Lilium longiflorum

JAPAN GROWN

Similar to the *Lilium Harrisii*, or Easter Lily.

	Each	Doz.	100
Mammoth Bulbs, 9 to 10 ins. in circumference	\$0 20	\$2 00	\$15 00
Extra Selected Bulbs, 7 to 9 ins. in circumference	15	1 25	10 00
First size, 6 to 8 inches in circumference	10	1 00	6 00

Lilium longiflorum multiflorum

This variety will produce more flowers, and is earlier than other types.

	Doz.	100
6 to 8 inches	\$1 00	\$7 50
7 to 9 inches	1 25	10 00
9 to 10 inches	2 00	15 00

Lilium longiflorum giganteum

This is quite distinct from other varieties, having a dark stem. It is splendid for late forcing, and should be especially valuable for next Easter.

	Doz.	100
6 to 8 inches	\$1 50	\$12 00
7 to 9 inches	2 00	15 00

Lily-of-the-Valley

Invaluable for forcing and planting out-of-doors.

Berlin Pips. Large-flowering; early	\$0 25	\$1 50	\$14 00
Hamburg Pips. Large-flowering; late	25	1 50	14 00
Strong Clumps . each, 25c.	2 50	18 00	

*Lilium speciosum album* (See page 10)

LILIUM

No herbaceous border or wild garden is complete without a liberal representation of these most graceful and charming flowers. Contrary to the general expression, they are of the easiest culture, and will thrive and bloom in almost any situation except dense shade. They are equally decorative and attractive as a cut-flower for the house. In view of the rising popularity and increasing demand for these beautiful plants, we have imported from all parts of the world varieties of great merit suitable for this climate.

Auratum (Golden-banded Lily). Selected bulbs. 25 cts. each, \$2.50 per doz., \$15 per 100.

Batemanniae. A most satisfactory Lily; has rich, glowing apricot-colored flowers. 25 cts. each, \$2 per doz.

Brownii. One of the finest Lilies known; has immense trumpet-shaped flowers, inside pure white with brown anthers, exterior of petals deep reddish brown. 50 cts. each, \$5 per doz.

Bulbiferum. One of the oldest Lilies in cultivation. Bright red or dark orange flowers, usually with some dull spots. 35 cts. each, \$3.50 per doz.

Canadense. Flowers various shades of yellow, orange and red, with dark spots. An excellent variety for massing or for scattering in borders of shrubby or hardy perennials. 25 cts. each, \$2.50 per doz.

Candidum (Madonna Lily). An old favorite; flowers are pure white and very fragrant. 15 cts. each, \$1.50 per doz.

Catesbaei. A native species, with bright orange-red flowers spotted with purple. 25 cts. each, \$2.50 per doz.

Concolor. Bright scarlet, with dark spots; dwarf; a lovely miniature Lily, each bulb producing two to three spikes. 35 cts. each, \$3.50 per doz.

Cordifolium giganteum. Very handsome flowers; a blending of white, yellow and purple. \$1.50.

Chalcedonicum (Scarlet Turk's Cap Lily). An excellent garden variety, but not very popular in America, as it is not well known. Very handsome flowers, intense scarlet color. 35 cts. each, \$3.50 per doz.

Colchicum (Szovitzianum). This and *Auratum* are without doubt the finest; in color it is a rich citron, spotted with black; anthers a rich chocolate-brown. One of the earliest varieties to bloom. 20 cts. each, \$2 per doz.

Croceum. The beautiful orange Lily, spotted black. 15 cts. each, \$1.50 per doz.

Davuricum. See *Umbellatum*.

Elegans (*Thunbergianum*). One of the most useful hardy garden varieties. Pale scarlet-red flowers, spotted red. 35 cts. each, \$3.50 per doz.

Elegans alutaceum (Prince of Orange). A dwarf variety, with clear apricot-orange-colored flowers, spotted black. Valuable for flower-beds and borders, as it is very showy. 15 cts. each, \$1.50 per doz.

Elegans atrosanguineum. Extra-fine variety, producing deep, dark red flowers, spotted with black. 35 cts. each, \$3.50 per doz.

Elegans aureum maculatum. A very pretty variety, curiously spotted with black. 15 cts. each, \$1.50 per doz.

Elegans aurantiacum. Pale scarlet-red flowers. 20 cts. each, \$2 per doz.

Elegans biligulatum. Bright orange-colored flowers, with many purple spots. 15c. each, \$1.50 per doz.

Elegans brevifolium. Fine variety, with pale red flowers, spotted black. 25c. each, \$2.50 per doz.

Elegans grandiflorum. Extra-large flowers of a rich blood-red color; very handsome. 35 cts. each, \$3.50 per doz.

Elegans robustum. Large flowers of a deep orange color, spotted with dark crimson; very vigorous. 15 cts. each, \$1.50 per doz.

Elegans sanguineum. Flowers blood-red, mixed with golden; quite distinct. 20 cts. each, \$2 per doz.

Elegans venustum. Very showy orange-red flowers, spotted golden. Late-flowering. 35 cts. each, \$3.50 per doz.

Elegans Wallacei. A dwarf variety, with apricot-orange flowers, spotted with black. Very distinct and effective. 15 cts. each, \$1.50 per doz.

*Lilium auratum* (See page 9)

LILIUM, continued

Excelsum. A stately Lily, growing 4 to 5 feet high; perfectly hardy; very free-blooming, bearing six to twelve flowers of a beautiful nankeen-yellow. 50 cts. each, \$5 per doz.

Giganteum. The noble Himalayan Lily. The most majestic of all Lilies. When well established grows from 10 to 14 feet high, bearing numerous long, tubular white flowers, streaked outside with purple; very handsome foliage; quite hardy; large bulbs, \$1.50.

Grayi. A beautiful native species, with deep blood-crimson-colored flowers; interior spotted with maroon-black, and shading to golden yellow. 25c. each, \$2.50 per doz.

Hansonii (Gilded Martagon). Large waxy flowers of a rich golden yellow, spotted with crimson-maroon. Of easy cultivation. 75 cts. each, \$8 per doz.

Henryi. One of the handsomest and most interesting Lilies ever produced. Rich, deep orange-yellow flowers, marked with a few scattered brown spots. Attains a height of 8 feet. Very fine variety for general use. \$1 each, \$10 per doz.

Krameri. A beautiful pink Lily. Quite unique in point of color. 50 cts. each, \$5 per doz.

Longiflorum. Is probably one of the best of the hardy Lilies, having pure white flowers; fine for cutting. 15 cts. each, \$1.50 per doz.

Longiflorum Takesama. Similar to the type, but with larger flowers. 15 cts. each, \$1.50 per doz.

Martagon. Strong-growing, producing twenty to thirty light-spotted purple flowers. Very graceful. 15 cts. each, \$1.50 per doz.

Martagon album. A most beautiful Lily, producing handsome pyramidal spikes of pure white flowers. 75 cts. each, \$7.50 per doz.

Martagon Dalmaticum. A stately Lily, bearing flowers from pale to dark rosy purple. 75 cts. each, \$7.50 per doz.

Pardalinum. A California variety, bearing twelve to thirty flowers on stems 4 to 6 feet high; bright orange spotted with bright crimson. 35 cts. each, \$3.50 per doz.

Parvillorum. A very pretty and graceful Lily, attaining the height of 5 feet, bearing numerous canary-yellow flowers, shading red. 35 cts. each, \$3.50 per doz.

Philadelphicum. A pretty Lily, bearing two to five flowers; cup-shaped base of pale yellow, maroon-spotted; tips bright scarlet. 25 cts. each, \$2.50 per doz.

Pomponium vernum. Scarce; bright scarlet; very much admired for its rich color and slender foliage; hardy. 35 cts. each, \$3.50 per doz.

Pyrenaicum aureum. Very bright yellow flowers, spotted black. 20 cts. each, \$2 per doz.

Pyrenaicum luteum. Elegant spikes of yellow flowers, spotted with black. 20 cts. each, \$2 per doz.

Rubellum. The beautiful new species from Japan, somewhat like *L. Krameri*, but stronger-growing; flowers very early, the end of May, having beautiful rosy pink flowers, yellow anthers; sweet-scented. 50 cts. each, \$5 per doz.

Speciosum (Lancifolium). The varieties of *Lilium speciosum* comprise the most important group of any one species. They are of easy growth and can always be relied upon to give satisfaction. The flowers are very beautiful, showy and distinct, and exquisitely fragrant. Magnificent as border plants. They are excellent for pot culture.

Speciosum album. Large, white flowers of great substance, with a greenish band running through the center of each petal. Fine bulbs. 20 cts. each, \$2 per doz.

LILIUM, continued

Speciosum album Kraetzeri. One of the finest Lilies in cultivation, having white flowers with dark orange-colored anthers. 35c. each, \$3.50 per doz.

Speciosum Melpomene. Very large flowers; rich blood-crimson, heavily spotted. 15 cts. each, \$1.50 per doz.

Speciosum roseum. White, shaded and spotted with rose. Fine bulbs, 15 cts. each, \$1.50 per doz. Extra large bulbs, 20 cts. each, \$2 per doz.

Speciosum rubrum. White, heavily spotted with rich crimson spots. Fine bulbs, 15 cts. each, \$1.50 per doz. Extra large bulbs, 20 cts. each, \$2 per doz.

Speciosum Schrymakersii. Early and free-flowering variety, producing many deep rose-colored flowers spotted with purple. 25c. each, \$2.50 per doz.

Superbum. Flowers orange to crimson, spotted brown; stately and showy. 20c. each, \$2 per doz.

Superbum Carolinianum. Flowers orange-red, thickly spotted and smaller than the type. A southern variety. 35 cts. each, \$3.50 per doz.

Szovitzianum. This and Auratum are without doubt the finest; in color it is a rich citron, spotted with black; anthers a rich chocolate-brown. One of the earliest varieties to bloom. 50 cts. each, \$5 per doz.

Tenuifolium (Coral Lily). One of the earliest; it bears in profusion medium-sized flowers of perfect form and of dazzling orange-scarlet. 20 cts. each, \$2 per doz.

Testaceum (Excelsum Isabelhum). Very showy and fragrant creamy yellow flowers, tinged with dull red. 35 cts. each, \$3.50 per doz.

Thunbergianum. See Elegans.

Tigrinum. The well known and beautiful Tiger Lily. A very vigorous grower, producing brilliant orange-colored flowers, spotted with black. Very hardy and popular Lily. 10c. each, \$1 per doz.

Tigrinum Fortunei. Rich orange-colored flowers, spotted crimson-brown. 10 cts. each, \$1 per doz.

Tigrinum flore pleno (Double Tiger Lily). Orange-red, spotted with black; double showy flowers. 12 cts. each, \$1.25 per doz.

Tigrinum splendens (Improved Tiger Lily). Fiery orange-scarlet flowers, with large crimson-brown spots. 12 cts. each, \$1.25 per doz.

Umbellatum (Davuricum) erectum. A very pretty Lily, producing rich cerise-scarlet flowers, shading to yellow. 15 cts. each, \$1.50 per doz.

Umbellatum grandiflorum. Large heads of scarlet and orange-colored flowers. 15 cts. each, \$1.50 per doz.

Umbellatum l'Incomparable. A handsome, showy Lily, with crimson flowers, freely spotted. 15 cts. each, \$1.50 per doz.

Umbellatum maculatum. Red flowers; very distinct. 15 cts. each, \$1.50 per doz.

Umbellatum multiflorum. Scarlet and orange flowers, in great profusion. 15 cts. each, \$1.50 per doz.

Umbellatum Sappho. Flowers scarlet, shaded orange; moderately spotted. 15 cts. each, \$1.50 per doz.

Wallacei. Flowers rich vermilion-orange, spotted with raised maroon dots; autumn-flowering; thrifty grower and highly satisfactory. 15 cts. each, \$1.50 per doz.

Wallachianum superbum. A grand new Lily; hardy; tall; with large tubular-shaped flowers; white, rich yellow inside, rosy brown tinted outside. \$2.

Washingtonianum. A distinct species, producing long panicles of flowers; white, shading off to lilac; fragrant. 50 cts. each, \$5 per doz.

One of our Peony Fields

PEONIES

Herbaceous Peonies *Paeonia Chinensis*

These are absolutely hardy everywhere, have no insect enemies, and always live and increase in beauty. The finer and newer varieties of this old garden favorite will delight every one, as the perfection of flower and the variety of color have been carried to a very high degree. The flowers are well adapted for cutting for the ornamentation of the house, as they rival the rose in perfection of flower and brilliancy of coloring, possessing a striking individuality that is in accord with the present taste and style in floral decorations. Our collection embraces the choicest sorts in the most striking colors—white, pink, crimson, etc., in various shades.

Strong roots, with three to five eyes, 35 cts. each, \$3.50 per doz., except where noted. Clumps, 50 cts. to \$1 each, according to size and variety

Separate Colors. White, pink and crimson; double. 20 cts. each, \$2 per doz.

Agaida. Dark red.

Alexander Dumas. Bright rose, with cream center.

Alice Crousse. Beautiful soft rose; rose-scented.

Anemone flore rubra. Deep crimson.

Artemise. Bright pink.

Baroness James de Rothschild. Pink; semi-double.

Beaute de Francaise. Delicate pink; tipped blush-white.

Blushing Bride. Bright flesh-color.

Candidissima. Pure white.

Carnea elegans. Pale rose, with yellowish center.

Decaisne. Bright violet-red.

Duc de Caze. Rose.

Duchesse de Nemours. Sulphur-white, with greenish reflex; fragrant. 75 cts. each, \$7.50 per doz.

Duchesse d'Orleans. Carmine-pink, center soft pink.

Duke of Wellington. Soft white, with pale creamy white center.

Edulis alba. White.

Edulis superba. Pink; sweetly scented.

Edouard Andre. Deep crimson-red.

Eugene Verdier. Blush, center white: very large and beautiful flowers. 75 cts. ea., \$7.50 per doz.

Festiva alba. White.

Festiva maxima. One of the best whites for cut-flowers; strong grower. 75c. ea., \$7.50 per doz.

Fideline. Purple, showing golden anthers.

Floral Treasure. Bright pink. 75c. ea., \$7.50 per doz.

PEONIES, continued

Fragrans. Light purple, sweet-scented.
Francois Ortigat. Rich purple, rose-scented.
General Bertrand. Violet-pink, center shaded salmon.
Golden Harvest. Yellow and pink. 75 cts. each, \$7.50 per doz.
Jeanne d'Arc. Rosy pink, white center.
Jules Calot. Blush rose.
Lady Bramwell. Silvery rose; very fragrant.
Lady Dartmouth. Beautiful pure white; rose-scented.
La Tulipe. Large flowers; snow-white; rose-scented. 75 cts. each, \$7.50 per doz.
Louis van Houtte. Fine bright violaceous red.
Mad. Crousse. Pure white, center edged with bright carmine.
Mad. de Verneville. Sulphur to flesh-white. 75 cts. each, \$7.50 per doz.
Mad. Jules Calot. Soft lilac-pink.
Magnifica. White, slightly fleshy; center yellowish white.
Marie Lemoine. Pure white, creamy center. Late bloomer. 50 cts. each, \$5 per doz.
Marie Stuart. Bright fleshy rose, edged sulphur.
Modeste Guerin. Anemone-shaped flowers; bright lilac-pink.
Mont Blanc. Creamy yellow, fading to a yellowish white.
Ne Plus Ultra. Pretty bright rose; very fragrant.
Pompon. Chamois-white, with carmine; center sulphur.

Potsi rosea. Rose, changing to white.
Princess Galitzen. Soft flesh, center sulphur-white.

Specimen Evergreens

Our Illustrated General Catalogue

While we have compiled this Bulb Catalogue for those who are especially interested in this class of plants, we have, in addition, issued our Illustrated Descriptive General Catalogue, as in previous years, which completely describes the items enumerated below.

Rhododendron maximum

Roses

New, rare and old-fashioned kinds are extensively represented in our enormous collection. Tens of thousands of Rose plants, sometimes consisting of over five hundred kinds, part of which are grown by us and others brought from almost every part of the globe, may be seen in our store-houses during the shipping season.

Rhododendrons and Mountain Laurel

Are growing by the thousands on our grounds. English and other hardy hybrids, Maxima and Catawbiense kinds are thriving side by side, in happy association with Mountain Laurel (*Kalmia latifolia*).

*Retinospora squarrosa Veitchii*

Evergreens and Conifers

Our collection is conceded to be the most complete and magnificent ever assembled in America. The varieties comprising same have been thoroughly tested and proved hardy. Our plants are dug with a large ball of earth and properly burlapped previous to shipping. Before purchasing elsewhere intending buyers should not fail to view our collection.

Blue Spruce, Koster's

We have several thousand handsome trees in all sizes, as well as several hundred of the rare weeping variety; every tree a specimen. The Blue Spruce is the most attractive of all the Conifers.

Standard Flowering Shrubs

Are now being used extensively in all kinds of planting and are effective in adding tone and grace to the grounds. We have a large selection.

Hardy Azaleas

On account of their great diversity of color are invaluable for creating charming floral effects on the grounds. We have an extensive collection in all the most beautiful varieties, which has been assembled from all parts of the world.

Magnolias

Are extremely ornamental and popular as they have a dignity and charm when in bloom that cannot be excelled by any other flowering tree. In addition to the magnificent flowers the bold handsome foliage makes them doubly valuable as specimen trees for the lawn.

Boxwood

Is now extensively used in all ornamental plantings, and on account of its delicate aroma is often a happy reminder of old associations and early days. We have Boxwood plants in every form and size for every use.

Berberis Thunbergii

Where a dwarf deciduous hedge is required, nothing excels or even equals this beautiful Barberry. It is of a thick, bushy, compact habit, very thorny and practically impregnable to dogs. The leaves are a light green and toward fall assume rich brilliant sun tints, the fruit or berries becoming scarlet and remaining so all winter. Requires little attention or pruning to keep in order. Also makes a most beautiful shrub for facing taller shrubbery, or for planting singly on the lawn for specimens. Perfectly hardy.

Pyramidal Boxwood

Flowering Shrubs

Are indispensable, as the grounds are not complete without them. We have upward of three hundred and fifty varieties growing in our nurseries—kinds that will grow everywhere.

Japanese Maples

The great decorative value of these handsome Maples is now fully recognized by all lovers of the beautiful in nature. The foliage runs the whole gamut of color from green to blood-red and bright gold, and, when artistically planted, produces an effect at once distinctive and charming. Possessing so many ornamental characteristics, and being of dwarf, spreading habit, they are admirably adapted for specimens and groupings on the lawn where touches or masses of color are desired. We can supply pot- and field-grown plants in all the best varieties.

Shade Trees

Are one of our greatest specialties. In addition to having large blocks of handsome straight-stem Norway Maples, Oriental Planes, Pin and Golden Oaks, we have an immense quantity of other trees in varieties, that are particularly adapted for ornamental and general planting.

Japanese Maple in Pot

Trained Standard Pear Tree

California Privet

No plant of recent introduction has come more rapidly and deservedly into public favor. Though mainly used for hedges, it is of great value for shrubberies, especially where tall backgrounds are desired. It is also largely used in topiary work, as it responds to shearing equally as well as Boxwood. It is hardy and vigorous and thrives well at the seaside and other unfavorable situations. We have a large selection in Standard, Pyramidal and Globe shapes, and also all sizes for hedge work.

Hardy Vines and Climbers

Are inestimable for covering pergolas, porches, arches, verandas, walls, fences, etc. Their graceful habit and infinite variety of beautiful flowers and foliage make them charmingly attractive all through the season. In addition to field-grown plants we can supply all the most popular kinds in pots, which can be planted from early spring until late fall.

Bay Trees in our Nursery

Small Fruits

In all the best varieties are extensively grown by us, and we are always able to furnish strong, healthy plants.

Oranges grown in pot

Hedge Plants, Flowering

There are many varieties of Flowering Shrubs which are well adapted for ornamental hedge work, and which produce a distinct decorative effect, especially in positions where a formal hedge would be inappropriate. We have many suitable varieties.

New and Rare Plants and Vines

Are extensively represented in our Nurseries, many of which are listed in our General Catalogue.

Weeping and Standard Shade Trees

Our collection of these remains unequalled. Parties intending to beautify their grounds should inspect these before deciding as to the kind of trees to plant. Every lawn, to be perfect, should have a fair representation.

Bay Trees

Are one of our specialties. Our collection usually consists of several thousand trees in dwarf and tall Standards, pointed Pyramids and Columnar forms, including extra-large specimens. Purchasers desiring fine, well-shaped Bay trees at reasonable prices will do well to call upon us.

Trailing Vines and Creepers

Are used for covering bare spots or shady nooks where other plants will not grow. We shall be pleased to give the names of the most suitable varieties adapted for such positions.

Fruit Trees

In Trained and Ordinary Forms

Trained Fruit Trees are one of the most attractive features of European gardens and have now become very popular in this country, mainly through our introduction. They are decidedly useful and ornamental, and their products are much superior in quality to the dessert fruit usually offered. While Trained Fruit Trees are higher in price than the ordinary Standard trees, we assure our patrons that the results are more than commensurate with the expenditure. We have a large selection of ordinary fruit trees in all the popular varieties. Any one desiring to plant an orchard will do well to write for our list.

Plants for Winter-Forcing

Lilacs, Azaleas, Rhododendrons, Gardenias and many of the Flowering Shrubs, such as the *Deutzia gracilis*, Forsythias and Cydonias can be made to flower during the winter months. Any one with a small greenhouse, where a gentle heat can be commanded, can obtain a gayety of blossoms.

Standard Bay Tree

Pyramidal Bay Tree

Bulbs and Roots

For every use. Japanese Lilies, Gladiolus, Tuberous-rooted Begonias and Tigridias should be liberally represented in every flower-garden. Our collections of Bulbs and Roots are complete.

Dahlias

Our collection comprises all the best up-to-date varieties. See our General Catalogue for list.

New and Rare Shrubs and Evergreens

We make a specialty of collecting from all parts of the world, novelties of merit, many of which are described in our General Catalogue.

Part of Our Working Force

Hardy Old-Fashioned Flowers

We have many acres of these popular hardy old-fashioned flowers and are constantly adding new and rare varieties to our already complete collection. We can fill orders of any magnitude. See our General Catalogue for list of varieties and descriptions.

*Arrhenatherum bulbosum foliis variegatis*

Old-Fashioned Gardens

The designing, laying out and planting of these favorite old-time gardens is one of the specialties of our Landscape Department, which has a thorough knowledge of the practical and artistic value of every plant. We are glad to be able to assist in the reinstatement of old-time hardy flowers, ornamental grasses and ferns.

Decorative and Flowering Plants

In pots and tubs for interior and exterior, summer and winter decoration. We have an extensive range of greenhouses devoted to the cultivation of plants for this purpose. Our collection of Palms, Araucarias, Aspidistras, Oranges, Ferns, Dracænas and other decorative plants cannot be surpassed in beauty and perfection.

Herbs—Kitchen and Salad Kinds

We have a complete assortment of herbs for cooking, salads and other purposes.

Arrhenatherum bulbosum foliis variegatis

This is one of the most valuable acquisitions to the dwarf ornamental variegated grasses. The leaves are very delicately marked with silver stripes. Invaluable for edging or bordering. 25 cts. each, \$2.50 per doz.

If you have not received our Illustrated General Catalogue, please write

Araucaria excelsa

Aspidistra lurida variegata

Kentia Belmoreana

Phoenix Canariensis

Field of *Picea pungens glauca* Kosteri

Landscape Gardening

For the benefit of our patrons and others who may be interested in laying out or renovating their grounds, we maintain a staff of Landscape Architects, Engineers and Gardeners, who are prepared to make professional visits and advise as to correct methods. Our extensive knowledge of the enormous variety of material adapted for beautifying the landscape has been acquired by years of careful study and research, resulting in the creation of a complete nursery.

The finality of indiscriminate distribution in planting is disappointment; therefore the gardens and grounds are entitled to the same skilled consideration and thought as are exercised in the planning of the residence and its interior decorations. We can furnish, on short notice and at reasonable cost, designs for Formal and Old-fashioned Flower Gardens, Topographical Maps, and Planting Plans for Private and Pleasure Grounds, Parks, Hotels, Schools, etc. Old estates renovated and cared for.

Do not lay out your grounds without first visiting our Nurseries, at which time we shall be pleased to consult or give any advice desired.
